

Finance solutions for energy efficiency at the municipal level

July 05, 2018
Start: 15:02 CEST

Knowledge Management System

The Copenhagen Centre's Knowledge Management System (KMS) engages stakeholders in energy efficiency initiatives through knowledge sharing and outreach. The KMS provides users with access to selected information, reports, publications, and databases on energy efficiency. The KMS is linked to many other energy efficiency initiatives.

Copenhagen Centre on Energy Efficiency

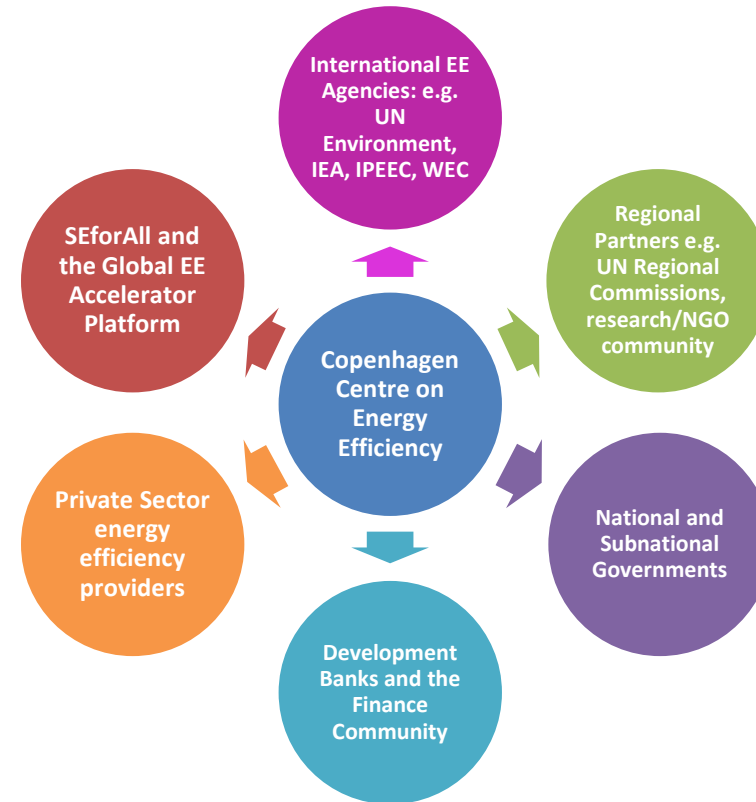

- is a research and advisory institution dedicated to accelerating the uptake of energy efficiency policies, programmes and actions globally
- serves as **Sustainable Energy for All** (SEforALL's) **Energy Efficiency Hub** and supports doubling the global rate of energy efficiency improvement by 2030

Key Focus Areas

Assisting policy change
in countries and cities

Accelerating action
through innovative
delivery models

Raising the profile of
Energy Efficiency

Irina Stamo is a Research Associate with Institute for Climate protection, Energy and Mobility. Irina holds a Bachelor's degree in Economics and expanded her knowledge by receiving her Master's degree in Political Economy of European Integration. She is currently working on projects dealing with energy efficiency, sector coupling, climate finance and urban renewal. Before joining IKEM, Ms. Stamo has gained experience amongst others at the German Energy Agency, German Solar Association and Arepo Consult. Irina has been involved in different projects and scientific activities, dealing with energy efficiency, European energy policy drafts, LNG, energy storage. She has done extensive scientific research dealing with the Nordic energy market, which Irina intensified in her PhD thesis.

Topic: Funding sources for energy efficiency projects

Victor Gancel is managing the Low Carbon City Lab (LoCaL), a Climate-KIC flagship programme aiming at unlocking climate finance for cities. LoCaL provides local authorities with training, project preparation, investment and impact assessment tools and services. Prior to working for the Climate-KIC, Victor worked in innovative services development in the Aerospace industry and community forestry in Africa. He holds a MSc in Finance.
