### About TERI and Industrial Energy Group (IEG)

TERI is a not-for-profit research institution 1974 and has been pursuing activities related to energy, environment and sustainable development by conducting cutting-edge scientific, technological and policy research with a focus on finding practical solutions to real-life problems faced by the government, corporate sector, urban and rural communities.

TERI's IEG division has played a significant role in promoting enabling environment of addressing the need for energy conservation through energy audits, related training programs and consultations for several national and international clients.

### About The Copenhagen Centre on Energy Efficiency

The Copenhagen Centre on Energy Efficiency (Copenhagen Centre) is dedicated to accelerating the uptake of energy efficiency policies and programmes at a global scale. In the context of the United Nations Secretary General's Sustainable Energy for All (SEforALL) initiative, the Copenhagen Centre is the thematic hub for energy efficiency with the prime responsibility to support action towards the SEforALL energy efficiency target of doubling the global rate of improvement in energy efficiency by 2030. The Copenhagen Centre is institutionally part of the UNEP DTU Partnership.
