

## Mission Efficiency

### Energy Efficiency Financing Charette

Hosted at the UNEP Copenhagen Climate Centre  
 UN City, Marmorvej 51, 2100 Copenhagen, Denmark  
 14 – 16 June 2022

***There is a fundamental disconnect between the finance community and the energy efficiency investments needed to deliver 40% of the Paris Agreement. The Mission Efficiency Financing Charette will be convened to undo this disconnect.***

The charette will bring together two groups: the world’s finance community (private sector, development banks, philanthropic organizations, climate finance facilities, etc.) and the projects and initiatives that are at the forefront of delivering the transition towards energy efficiency.

This will NOT be your typical one-way dialogue and limited audience participation conference. The goal will be to address current gaps and facilitate commitments to work together to redefine investing in energy efficiency projects and to launch an energy efficiency market readiness initiative at COP27 (Sharm El-Sheikh, Egypt, November 2022).

**The message we want to bring to COP27 is that, once and for all:**

*We have figured out and are committed to investing in energy efficiency - our best chance of meeting energy transition and global climate action goals.*

**About Mission Efficiency**

Mission Efficiency is a collective of commitments and actions from a coalition of governments, organizations and initiatives that come together to accelerate the transition towards energy-efficient economies worldwide. The end-use sectors covered by Mission Efficiency collectively represent *nearly all of the global electricity consumption*. The Mission Efficiency partners (formerly the Three Percent Club) bring the expertise to deliver solutions in these sectors that provide energy and climate action.

**Who Should Attend?**

We invite financial institutions and partners to send multiple attendees that can in parallel participate in the two parallel breakout sessions, where appropriate. We also ask that organizations come with a willingness to engage with Mission Efficiency long-term, including making commitments and being ready to support for the months leading up to COP27.

*As a partnership, we operate under the guiding principle that more can be accomplished by joining and working together than by standing apart and working alone!*

**High-level Program**

Tuesday, 14 June 2022	
18:00 – 20:00	Welcome reception and networking hosted International Copper Association
Wednesday, 15 June 2022:	
08:00 – 18:00	Energy Efficiency Financing Charette
Thursday, 16 June 2022:	
09:00 – 13:00	Mission Efficiency partner meeting

*(Detailed program on next page)*

**Last update: 13/06/2022**

<b>Tuesday, 14 June 2022: Arrival welcome</b>		
17:00 – 18:00	Registration process	
18:00 – 20:00	Welcome reception and networking <i>(Location: UN City – Atlantic Ocean Lounge)</i>	Hosted by Mission Efficiency
<b>Wednesday, 15 June 2022: Energy Efficiency Financing Charette</b>		
08:00	Registration	
08:30	Welcome remarks	Susanne Pedersen UNEP-CCC
	Call to Action	Filippo Berardi, GEF
	Setting the scene and how the day will run	Steve Kukoda, ICA
08:50	Introduction to Mission Efficiency	
09:00 – 11:00	Key sector bankable energy efficiency solutions: - Buildings - District energy - Industry - Products: appliances, equipment - Transport and mobility	Moderated by Steve Kukoda, ICA  EE Accelerator leads & partners (20 minutes in each sector)
11:00 – 11:15	Break	
11:15 – 12:45	Innovative energy efficiency finance solutions - <b>Banks, funds or other financial institutions</b>	Moderated by Nigel Jollands, EBRD
12:45 – 13:00	Post-morning wrap-up session	Reflections from ICA, UNEP-CCC and SEforALL
13:00 – 14:00	Lunch	
14:00 – 17:00	Deep-dive breakout sessions	
	<b>Investing in Appliances and Vehicles</b> (Consumer products)	Moderated by UNEP-CCC
	<b>Investing in Buildings and Cities</b> (Buildings, district energy and urban mobility)	Moderated by SEforALL
	<b>Investing in Industries and Industrial Products</b> (Industry, heavy equipment, motors)	Moderated by Carbon Trust
17:00 – 17:45	Reconvene full group for report-outs from the deep-dive breakout sessions	Reporting from UNEP-CCC, SEforALL, Carbon Trust
17:45 – 18:00	Next steps and closing remarks	Reflections from ICA, UNEP-CCC and SEforALL
18:15 – 20:00	Dinner <i>(Location: UN City – Atlantic Ocean Lounge)</i>	Hosted by International Copper Association
<b>Thursday, 16 June 2022: Mission Efficiency partner meeting</b>		
09:00 – 13:00	Workshop and next steps - Processing the output from the Charette - Examining the potential for energy efficiency market readiness initiative within Mission Efficiency Developing a timeline and actions up to COP27
