

Coopérnico

Renewable Energy Cooperative

Ana Rita Antunes

About Us

Coopérnico was created with the single goal – to promote renewable energy by the empowerment of citizens. So what we want to achieve is:

- A fair and responsible **energy model based on renewables**;
- To contribute to a social, environmental and energetic sustainable future;
- To **involve citizens and companies** in the creation of a new energy paradigm - renewable and decentralized - for the benefit of society and the environment.

Our commitments

coopernico

Energía verde, Sustentabilidade
Cidadania

100% green energy

All electricity is produced exclusively from renewable energy sources

Social Value creation

All our projects create social value, either by close collaboration or the sharing of revenues with organizations operating in the social economy

Developing local economy

When we develop a new project we prioritize local partners. This creates local jobs and promotes the transition to a sustainable economy

Integrity and transparency

They are the basis for long and trusting relationships. Updated information on our projects is shared with all the members that have supported them

About what we do

Coopérnico focuses its efforts in three main areas of activity:

- Production of renewable energy (so far only PV);
- Commercialization of Energy to its Members (commercial partnership with YLCE);
- Energy Efficiency:
 - ID Energia;
 - Talks with Energy;
 - Self-consumption for members (PV);
 - Tackle Energy Poverty;
 - Energy Communities.

Production

**21 DECENTRALIZED PV PROJECTS
(20 FIT + 1 PPA-SELF CONSUMPTION)
